Location: **Olinda, BRAZIL**

Mission: **Church-based community development and evangelism**

This month has been busy with lots of activities and it was lovely to be able to catch up over coffee with the Cochranes on a short visit they had in Recife/Olinda, whom I hadn't seen in the flesh for over 25 yrs.

The Good News Club had a great day out in October to a house in the countryside with a pool and football pitch, to celebrate 15 years of God's goodness to the Evangelism outreach in Peixinhos. Everyone chipped in to make it possible and all volunteers and 50 children had a wonderful time. Needless to say, the beautiful blue pool water was not quite the same when we left as when we had arrived! You can hopefully use your imagination – my advice to the young adults in charge of keeping an eye on the younger children in the pool was simply not to allow any of the water into their mouths.

October was also a month when more puppets and books arrived for the team of volunteers from Beberibe congregation. Our new puppets have been named Rebecca and Cristiano Ronaldo by our keen and enthusiastic 5- and 8-year olds. All of the young puppeteers are really excited about going 'Fishing' together at the evangelistic event planned for early December. They already have their plastic fish ready with space for new names to pray for. Two of the teenagers are also hoping to sing a duet at the Street Evangelism Event.

GLOBAL DISCIPLES
Go Deep Go Wide
November 2024

Please continue to pray for safety and protection at this time. The other Saturday a stray bullet came in through my kitchen ceiling much to our surprise and particularly that of Faniquita my dog who literally jumped off the sofa where my dad and I were sitting with her. Needless to say, she was the one who found the bullet on the floor! We are very thankful to God that we were not in the kitchen when it happened and no one was hit. Stray bullets sometimes occur due to folks madly shooting up into the air whilst passing by on their motorbikes. The hole left in the aluminum roof thankfully has been repaired so the rain won't come in.

This month my dad and I enjoyed a few days away at the beach before he heads back to the cold weather of Ireland.

Prayer points:

- Give thanks for continued safety and protection
- Continue to remember the 'Reading in the Park' and the Good News Club activities.
- Pray for the evangelistic events planned for both Peixinhos and Beberibe for early December that God by His Holy Spirit would already be preparing the hearts of the 'Fish' who will attend.
